They say you getting money now, ain't you bro
Just like I thought
Counting figures, chill with model bitches
Just like I thought
Everything you do it, come with ease
Just like I thought
Everything I do it, comes with fizz
Just like a boss, light it up, pour it up
Front a hater, point him out
Base wild, purple clouds, let them girls scream and
shout
After this girl we gonn catch this flight, let's go get lost
She replied I want this every night
Just like I thought

Now I was chilling with these bitches
We was staring at the ceiling,
Champagne spilling, all I did was call them up
You know the willing
Everytime I hit a lick, I spend that paper with my teamo
Lvl-ing ysl-ing, taking years to learn our lingo
I be popping, I be hopping, different states when I be
shopping
I be dropping hellagwap, this my life no other option
Bsp we keep it thriller, hella faded my nigga
College kids and hipsters, all inomed with all these
dealers
I be rolling, I be rolling, out on pills
I keep it poting on my movers, lock and loaded
I'm just doing what was chosen from the projects
Where it's hopeless, all did was focus, on my motives
Then I nodes, I was getting what was spoken
Baby I'm about my paper, if you not then see you alter
Give a fuck about a hater, they keep me so motivated
All this money I made that dolo, when they all tell me
no though
Now they all call me bro though,
All these girls wanna get low dough, like I thought

Girl is you all about your money, pop it for me, bring it
to me
You might make it to the suit, but your home girl keep
acting funny
All them lamos, we don't know em, levels we don't
show em
High on the highway, we be ghosting, we be floating
All I do is keep it real with all my soldiers from the
villain
All they do is trap and killing, I won't be that happy too
They all riding lambos
Hooterville my famo, see me with my shirt off
And my lvl cammos, all my bitches different races
They come from these different places
And I got so many new ones, my new ones come into
space ships
All I know is lvl, plus that ysl, ghost van rolling
And you know I'm high as hell
Man I got so many blows, selling my own clothes
Making my own beats, rocking my own shows
Man I got so many blows, selling my own clothes
Making my own beats, rocking my own shows

You see that girl over there, she look about it
You see that girl over there, she look about it
And if you rolling with me just scream and shout it
And if you rolling up weed, well roll a molly
You see that girl over there, she look about it
You see that girl over there, she look about it
