I swear I gotta go harder  
The streets is taking my niggas  
Breaking my mission and take us farther  
To be a martyts, not in the plan for regardless  
It's murder, every time I come alive  
I just pull the chill with my nigga in the villa with some  
bitches  
Way far from the hood, couple killers with us  
Everyday run the street, playing god with us  
But it ain't enough, as I roll through the streets  
blowing hela blunts  
See the same niggas that I came up with  
Let the kids in my car you could touch this  
You could start that, you could take this  
You could grab that,  
I remember what it's like not to have that  
I'm from the projects and I'm still there  
On some real nigga, but he still there  
Pcp, 151, that's where I'm from,  
88/10 northmon

It's murder, everytime I spit it's so promising  
It's no stoppin em, it's like pacs in them  
Or big poppin em, I get a lock from em  
Where my eyes are slim and my mind is open  
I walk em in, ghost nigga  
Talk to them, but look at me  
You're all pawns plus rooks to me  
It's all dogs, plus crooks for me  
This lvl is my dynasty, those main niggas will ride for  
me  
And my young niggas will slide for me  
Hold up, let me hit em, nigga  
Hit em with a little bit of flow  
Niggas ain't fuckin with me, this year I'ma let em  
know  
My nigga gone, but I'ma do it, this one here is for the  
road  
I'm looking for that purple fluid  
If you gotta let a nigga know, murder

[Hook] x 2

Who stay before me, this for the ones before me  
These niggas can't ignore me, my flow is another  
story  
Your favorite rapper garbage, nigga fresh the hardest  
I'm lvl my nigga, used to loose regardless  
Pull up ok, and go like this  
A flow won't switch to a mop 3 shift  
Gotta knock me bitch with a big ol booty  
All she ever wanna do is buy me shit  
But I ain't got time, I spent it on the rollie  
One man army, know I roll dollie  
Niggas swear they know me, but they don't know me  
I always been real, they always been phoney  
Born to be a sinner, transformed into a winner  
Skill level so advanced, what the fuck is a beginner  
Born to be a sinner, transformed into a winner  
Skill level so advanced, what the fuck is a beginner, ah!
