Oooh  
Yeah  
Only the really shit take path in this  
Give you my soul give you my lab give you my heart in  
this  
But steal  
....  
The whole plan was to murder me than  
Look what I blame  
Just for you to witness  
Fuck these niggas and fuck these bitches  
I'm about my buisness  
Scars so that's on the mission  
That the spirit listen  
..Is to pay attention  
When the fear is in you  
There's no way you can get in this  
From a..  
aah  
Got up so quick aah  
Follow the script now these models are on my dick and  
..  
Only makes me go harder  
I read it that to my father  
Like my .. nigga  
From the predicts to the happends  
Act like you know me nigga  
To these children we only figures and I  
promise to stay true  
Always remain who  
Nico remain cure  
  
uuuh  
uuuh  
  
Drollin up cause money in  
Rollin up cause money go  
I don't know what funny is  
Cause funny .. just save my frow  
Rather fuck my brother's aah  
Rather fuck that funny go

I don't know but I forgive  
I hope they know where money is  
I hope they are the sunny years  
Palm trees and palm weed  
I wish you were a honey.. and good life in ..  
I mean  
Seing things as I see  
Remember yo what I see  
Makes you all believe  
Guess I'm like a teacher  
I guess I'm like a saint  
I gave you all the life  
But these mean who .. the plan  
Is me who took this sword  
No improve..  
And I'm feelin to exhaust  
Just the wrong and relate

So I let my people run  
To the village with no trap  
But when the world turns his back  
Hit's me that's gone ..  
To the darkness I will need them  
But they walked out to the kingdom  
I guess they search for freedom  
And the levels they don't need them
