I, don't care any more,
never been more sure
that we could be

I know that you're the one
thank g-d its done
and our loves in peace

chorus:
don't you worry I'm here
our love has no fears
and ill be there with you

V2:
You, should stick by side
and we will find
what our love could be
you, know what's right
that's why we don't fight
don't you see

chorus:
don't you worry I'm here
our love has no fears
and ill be there with you

chorus:
don't you worry I'm here
our love has no fears
and ill be there with you
