Verse 1

Feel's like yesterday when we first met, laid my eyes on you.

but I dint see your face, my blood bowling and this is the final straw.

ready to move on, can't take this anymore.

the breaking point is up, I need to fly away, and get on wit my life.

Chorus

cuz this is a disaster, a disaster over and over again.

I been chasing you in a circle, this is a mess

that shouldn't been created, I knew it was wrong but it felt so right.

but now I'm starting over, new chapter in my life

Disaster,disaster,disast-e-e-e-e-e-r 2x

Verse 2

I need to change my identity, so you cant notice me.

Trying so much to forget my past, been high above the clouds, and you can't hinder me or knock me on the ground,

This nightmare has ended and the future is bright.

Without you here with me, I don't have to relive the pain.

Chorus

cuz this is a disaster, a disaster over and over again.

I been chasing you in a circle, this is a mess

that shouldn't been created, I knew it was wrong but it felt so right.

but now I'm starting over, new chapter in my life

Disaster,disaster,disast-e-e-e-e-e-r 2x

Bridge

punch me, hit me, kick me, slap me, bite me, pinch me, whip me,

this is now goodbye, enough with your strange ways leading on my path, and it doesn't involve you in any kind of way,

Chorus 2x

cuz this is a disaster, a disaster over and over again.
I been chasing you in a circle, this is a mess
that shouldn't been created, I knew it was wrong but it
felt so right.
but now I'm starting over, new chapter in my life
Disaster,disaster,disast-e-e-e-e-e-r 2x

you put the nail in the coffin
and now this is goodbye
