Verse 1

Well I won't breathe, I stop for you
It's a promise, I keep to be true,
To myself, and no one else
My heart only bleeds for you
The wound, I pick away
And I'm the scar you see today

Chorus 1

Run my fingers through your hair,
You are cold, you are still,
Please just move,
Where's your soul please just breathe,
I beg you come back to me
Like a candle needs a flame
I'll breathe for you

Verse 2

Lay down in your hole, trade a life for a soul
Empty words on parole, in your funeral dress
A mess
For a life that was blessed
(Please just let me go)
I'm looking down, your shattered crown
Is emblazoned in crimson tears,
I hold my hands up towards the sky,
Salute the world as I watch you cry,
(Take my wings)
I talk to god nearly every day
He said pull the trigger blow a life away
(Let me fly)

Chorus 2

Run my fingers through your hair,
You are cold, you are still,
Please just move,
Where's your soul please just breathe,
I beg you come back to me

Like a candle needs a flame
I'll breathe for you

Middle 8

But I have wars in my head
You should have let me be
But I can't understand what you wanted to see.
A love that protects you, a love that was there,
Not a love that would hit you and make you scared
Because I;
Was sorry now for what I've done,
As I push you down why you tried to run
And I
Can't remember now what I did,
But I cradled your body
As your limbs went limp

Chorus 3

Run my fingers through your hair,
You are cold you are still,
Please just move,
Where's your soul please just breathe,
I beg you come back to me
Like a candle needs a flame
I'll breathe for you
For you
For you
For you
