I dare you to say it
It's never enough to just feel words
and my poor intentions
(If it's on your mind it might be on mine too
I'll believe it when I see it)

When will you get here?
(So when are you gonna get here?)
I've been waiting, contemplating heading south
Who will cut our hair when a gong is playing
Over and over and over
(a little bit too loud)

Let's see where this will go
and I will follow but just know
that I don't have it in me
to see the sight that you are seeing

So say what you will
it's what I've been saying all along
but, my words from your lips all wrong

(i'll be) the one
If you're looking to blame
(It's two AM) so it all feels the same

So what are we gonna do
for the next three hours,
the next three hours
(making ... problems ...)

this is not the point
where can say all that you want
you know you can't
and this is not the point
where you can take all that you want
you know you can't

you think you can
but you know you can't
Let's see where this will go
and I will follow but just know

that I don't have it in me
to see the sight that you are seeing

So say what you will
it's what I've been saying all along
but, my words from your lips all wrong

And you should've not ever seen me like that
vulnerable you're coming right back
with words so undeserving
sometimes i don't think you're listening

to what exactly you are saying
the harsh ideas you are conveying
If this is what you mean
then say it like you mean it

and I will always say always
(but you will never say never)
and I will always say always
(but you will never say never)
and I will always say always
(but you will never say never)
and I will always say always
(but you will) NEVER SAY NEVER (say never)

AND I WILL ALWAYS (ALWAYS!)
BUT YOU WILL NEVER SAY NEVER SAY NEVER
AND I WILL ALWAYS (ALWAYS!)
BUT YOU WILL NEVER SAY NEVER SAY NEVER
AND I WILL ALWAYS (ALWAYS!)
BUT YOU WILL NEVER SAY NEVER SAY NEVER
AND I WILL ALWAYS (ALWAYS!)
BUT YOU WILL NEVER SAY NEVER SAY NEVER
