### "My Angel"

How long I will exist among dead stars  
How long I will be a game without end  
I will be waiting travelling to endless skies  
Choked into the seas of your forgetfulness

Like a bird  
I am flying far away  
Searching for joy  
To another place

Temptation  
Destination  
Of desire for  
Every darkness  
There is a light  
For every innocent soul  
There is a promise  
And a god on the skies

Like a bird  
I am flying far away  
Searching for joy  
To another place

How long I will exist among dead stars  
How long I will be a game without end  
I will be waiting travelling to endless skies  
Choked into the seas of your forgetfulness
