I met a girl,  
Down the park  
We talked for a bit  
Then another week later we feel in love at a bus station  
She said i know you like me and i like you two and i,  
would be your guardian angel then she put her hand on  
my face and she said to me i like you lots. Then went  
for a kiss.  
I met a girl  
She said to me would you ever leave my side and i said  
i would never leave your side the only time i would  
even leave you side would to go to bathroom and we  
both laughed  
Then 2 weeks later i had call from her sister saying she  
shes s
