Love the way they all keep talking  
Everybody likes the sound  
But no one ever hears me crying, crying out

You make it feel like home  
You make it feel like home  
Like home

Never been so scared of losing  
But never understood the calm  
So take me where I wanna be - back in your arms

Cause you make it feel like home  
You make it feel like home  
Like home

Only you only you only do this  
Only you only you only do this  
And it's never the same cause

You make it feel like home  
You make it feel like home
