Nicole Nirvana - Keep Running Back

Verse 1

I'm about to set it off up in this room
I want to make sweet love to the light of the moon
I'm gonna do some things that you never seen
We're gonna do some sh! t that you can't believe

Chorus

I want your love I want your love I want your love you
know I want it.
I want your love I want your love I want your love you
know I want it.
Keep running back running back running back right
back to you.
Keep running back running back running back right
back to you.

Repeat Chorus

Verse 2

Me and you making love is overdue
No telling what I might do to you
Like making love, the kind only in your dreams
Me on you- and you all over me

Chorus 2x

Breaking all my so press to be with you
Breaking all my so press to be with you
Breaking; Breaking all my so press to be with you
Breaking all my so press to be with you

Chorus2x
