calling upon my heart,  
suppression me by ordering,  
can't control own mind  
can't do it alone

can't remember anything

salvaging me,  
salvaging me,  
salvaging me,

fighting, tussling, every single moment  
is that representing our own hell  
am i become self hatred  
am i become a slave

how i escape from this parasite  
how i relinquish this parasite  
this is a mass suppression which impaled  
my soul

should i yield the palm to,,,,,,,,,,,,,,,,,,,,,  
if i keep my eyes closed they will never  
& ever find me

a serpent rises in my body  
can i away from this eternal nightmare
