Five months are passed by
I'd only see in your eyes
Watching our fairytale
All the nights i've spent alone
Freaking out all along
I want you here with me

Follow you
It was like being surrounded
By hundred fireflies
Cause your eyes
Cause your smile
They rise my lonely happiness

Every time i tried to say hello
You behaved always like a whore
I can't even imagine the reason why you treat me so
Wondering how tangled is your head
Each word you say makes me feel so bad
Your fear of love let you become a walking dead

But now it's time
I want scream all night
How much i hate you my girl
How much time i wasted looking
For a truth in your lies

All the crap you said now are no-sense cloud
That flowing away from me
I know, people may change
But you do this faster than i ever saw
No matter what you try to do
Your kindness is the last falling leaf
From an already bare tree
I swear, this is the last time you can glorify the results
of your mistakes
Roads are free, my head is clean
While i'm driving miles away
I hope the consequences of your choices leave you
alone
I thank my strength for real

And now stay away from me
From me
