I look into your soul
Eyes prying
Dying to know how I feel so whole
When you leave the sun goes
So take my heart with you now
No need to say what I know

Just be with me
Your love is the best part (x 4)
Even if it all falls apart
Your love is the best part (x 2)

Tell me, friend, can you feel me?
Is my love strong enough to breathe
When you're so far from me?
Time moves by, I can't speak
I'll say it all to you now
Nobody is listening

Just be with me
Your love is the best part (x 4)
Even if it all falls apart
Your love is the best part (x 2)

After all (x 2)
You're everything I live for
After all (x 2)
You're everything I live for

Even if it all falls apart
Your love is the best part (x 4)
