Some people live their lives like it's a game that'll
last forever
Some bring the water to the well
Some people can their dreams and think that money's
all that matters
I ain't got nothing that I'd sell

Some people try so hard to make it better
Some people through it all away
I know it's all been said but hey why don't we stick
together
I'm sure we'd make a brighter day

Well I ain't got much but I'll share it if you want
Well I ain't got much but I'll share it if you want
Oh I'll share it if you want with love
