Yeah we were the special kids I cracked you up you
made me never stop
We'd build our little secret world we'd bring it out
and dance until we dropped
I was playing air guitar, jumping in your bed when no
one's there
I would let you paint my face and dress me down and I
would do your hair

And now what, you go and break it
You're so cold, don't try to fake it
You're full of shit and I won't take it Yeah yeah,
Oh bite me

You used to say that I should be a queen and now I'm
on the scene but you can't seem to take it
I guess you never were no Aragorn, you just lead me
on, you didn't think I could make it
You promised me forever and whatever you should
always be my friend
Now suddenly you're turning sides and let me down,
now tell me where you stand

And now what, you go and break it
You're so cold, don't try to fake it
You're full of shit and I won't take it Yeah yeah
Oh bite me

We're just wasting time, have you lost your mind,
don't throw it all away

Yeah you liked me flipping out you called me Freak and
I would call you Punk
You saw me cry and I could tell you why but now you
push me out and you're treating me like junk
We'd be getting drunk and cut our weirdo songs 'til
4 in the morning
Now you are gone seems I lost you without warning

And now what, you go and break it
You're so cold, don't try to fake it
You're full of shit and I won't take it Yeah yeah
