Bangladesh's too far away to save, let's send  
another ape to space  
We walk the moon, it's not too soon, to fear, to build  
another base  
Rush adrenaline, exhale your sin, let's break a better  
deal  
We excavate, don't hesitate, don't wait for Mother  
Earth to heal

Come dignity, humanity, serenity wash over me  
Wash these dark atrocities away  
Come sanity come clarity, divinity  
Wash over me  
We're wide awake and there's no time to waste

A third world child dies for a nickle a jetlag knocks us  
out  
When did we get so damaged so comfortably numbed  
Let's put our guns down to the ground, give a hand  
before we drown  
Let's shiver to the ancient silent sound of allness  
being one

Come dignity, humanity, serenity wash over me  
What's the matter with you  
What's the matter with me  
Come sanity come clarity, divinity wash over me  
We're wide awake and there's no time to waste

Powerplants, supply my amps, I'm writing songs of  
love  
Magazines with sick routines, hype the latest drug  
Sex's what sells, hell it smells, good Love's all for  
free  
Parrotalk, chickenwalk, big men let me be

Someday feels far away  
But I don't want to break  
I call you, I call you, I call you  
Wash these dark atrocities away

Come dignity, humanity, serenity wash over me

What's the matter with you  
What's the matter with me  
Come sanity come clarity, divinity wash over me  
We're wide awake and there's no time to waste
