He said, I don't know where you belong but I am
barely holding on
I brench to find me all alone and so very,very wrong
And I know that I could be just so much more
I carve myself to find a core, a coward facing closing
doors that noone wants to know

But I, I'm gonna give myself away, I'm gonna make
this come undone
Please put a little faith in me , I need a chance to turn
around
You go and light the sparks in me before it's all a
tragedy
The diamonds sky is far below, I know I got to let it glow
I got to let it glow...

I think I knew myself at three months shy of seventeen
I met this girl of wounded dreams she said it's not as
easy as it seems
She said earth is something so pristine, a paradise in
colordreams, still I cry at what I see
Oh I can't sit and wait, hesitate, watch our karma
clean the slate but I'm so very very late
There's a storm within these walls at night I swallow
hard I think I might go ride before the fall I got to ride
before the fall

But I, I'm gonna give myself away, I'm gonna make
this come undone
Please put a little faith in me , I need a chance to turn
around
You go and light the sparks in me before it's all a
tragedy
The diamonds sky is far below, I know I got to let it glow
I got to let it glow...

There's a universe in you and me, we're beautiful
and wild and free
We are love and we are light and I got to get this right
I know, I shiver hard just hold my hand, promise me
you'll understand
We can mend this broken land

Oh I can't sit and wait, hesitate, watch our karma
clean the slate but I'm so very, very late
There's a storm within these walls at night I swallow
hard I think I might
go ride before the fall I got to ride before the fall

And , I'm gonna give myself away, I'm gonna make
this come undone
Please put a little faith in me , I need a chance to turn
around
You go and light the sparks in me before it's all a
tragedy
The diamond sky is far below, I know I got to let it glow
I got to let it glow...
