If you need me Love I'll carry you
If you need me love, I'll be there for you
If you need me love, I'll carry you
If you need me love, I'll be here for you

I'll be your strength in your time of need
I'll lift you up if you're on your knees
Your heart is safe your secrets what I keep
I will hold you while you sleep

If you need me Love, I'll be there for you
If you need me love, I'll be here for you
If you need me love, I'll be here for you
If you need me love, I'll be here for you

When you struggle
And there's no hope in sight
When you feel like it's an endless fight
I'll be by your side through the darkest night
I won't leave 'til it's all alright

If you need me love, I'll carry you
If you need me love, I'll be there for you
If you need me love, I'll carry you
I will sail across the seven seas for you

If you're trying to stand but keep falling down
If you cannot reach I will hold you tight
If your soul is torn the way you can't see the light
I will shine, I will shine for you

And I will be all that I can ever be for you if you'll
just
Let me shine for you
