I feel in love with a helicopter pilot
He made me think I'd wanna have his babies
He made me think this was something special
Still I never wanted him on his knees

But I was his snow leopard and he was my partner in
crime
We'd go crazy dancing 'til we were running out of
time

I guess he never even cared to really know me
It's not enough for me to be someone's craving
I would've let him dive into my ocean but all he did
was rock the boat

But I was his snow leopard and he was my partner in
crime
We'd go crazy dancing now we're breaking up I
don't know why

We said goodbye at the crowded station of Stockholm
It puzzled me I never saw you cry
You told me a beautiful line from a movie that I've
never seen
It was Braveheart and it hurt so bad to part

Why....

I feel in love with a helicopter pilot
He made me think I'd wanna have his babies
I fell so hard but the flight was sweet
Just wish I had managed to land on my feet

But I was his snow leopard and he was my partner in
crime
We'd go crazy dancing 'til we were running out of
time...
