Doctor get me something for this pain  
Doctor I think I just fried my brain  
Spoonman rattles make me shiver  
I think something's wrong with me  
Coldman giggles I'll deliver  
I think something's wrong with me  
I think something's wrong with me

Don't go leave me stranded  
the sand is burning me  
Don't go leave me sliding  
on and on and on and on

Spiders crawling underneath my skin  
Don't come asking where the hell I've been  
I saw Janis and Curt Cobain  
I felt Elvis singing in my brain

Don't go leave me stranded  
the sand is burning me  
Don't go leave me sliding  
on and on and on and on

aaaah aahh aaah aaah  
ohoo hooo hooooo

Untie these hands give me something to hold on to  
Don't go leave me sliding  
on and on and on and on  
Don't go leave me stranded  
the sand is burning me  
Don't go leave me sliding  
on and on and on and on

I think something's wrong with me  
I think something's wrong with me  
I think something's wrong with me  
I think something's very wrong with me
