"With You"

Visit "[With You](#)" on MotoLyrics.com

Well it's a long way down
To the hill side town
The lights are far away
And my dress is dirty from the climb

Why you look so pale
And your eyes so weak
I lay my face to your chest and my gun to the ground
Then I hear you speak

I would love to be in love with you
I would love to be in love with you
I would dare to give my heart to you
I would dare to give my life to you

Well it's a long way down
And I don't care right now
I don't see the ground
Watch me come undone
Oh the trees are bending
and they hide us here

I would love to be in love with you
I would love to be in love with you
I would dare to give my heart to you
I would love to share my life with you

I would dare to be myself with you
I would dare to face the world with you
I would give my soul to be with you
I would dare to loose myself in you
