"You Should Know By Now"

Visit "[You Should Know By Now](#)" on MotoLyrics.com

I never been so close I never been so loved
I never felt so close I never felt so loved
I see the fire in your eyes
oh this is love so vibrant to the core
I think my heart's about to burst
My lips are sore my soul keeps wanting more

You should know by now the way I feel about you
You should know by now the way you really turn me on

Oh I will love you wrecklessly
Oh this is love like never known before...
I can't get close enough , I'll love you 'til I cry
I can't get close enough, I swear I'll love you 'til I
die

You should know by now the way I feel about you
You should know by now the way you really turn me on
You should know by now the way I feel about you
You should know by now the way you really turn me on

You turn me on..You turn me on

I never thought I'd meet a boy
who sings to me and treats me like you do
I never thought I'd meet a boy
who knows to be and treats me like you do

You should know by now the way I feel about you
You should know by now the way you really turn me on
You should know by now the way I feel about you
You should know by now the way you really turn me on
You turn me on!

You should know by now the way I feel about you
You should know by now the way you really turn me on
You should know by now the way I feel about you
You should know by now the way you really turn me on
You turn me on!
