If I lead you to the line
Roll me over on my side
But I don't mean to be unkind
I'd pick you every time

Shine a light on one and one
Make love easier to find
I didn't mean to cross the line
I'd pick you every time

Sing for me the stories that you find
Now make up my mind
As long as you'd say you'd be my girl
I would wait around for you until the end of time.

If I lead you to the line
Roll me over on my side
But I don't mean to be unkind
I'd pick you every time
I'd pick you every time
I'd pick you every time
