This is my life it is a kind of fight
If you are so strong as you say please try to survive
I beg and please do not try to understand all my mind
Because if you understand It your life will change,
please stay blind

Leave me alone
Please

Sometimes I gotta believe severely that I'm the best
To cloud my conviction of being the worst
Girls are like cigarettes they end so fast
But they hurt everyone and you can't do without'em

Leave me alone X2
Please

Leave me alone, this I'm saying
Leave me alone, I'm soft like a pillow (X4)

Please
