Only as I slowly freeze  
I reach for you  
I reach for you  
And now I know where no one's ever been  
Right next to you  
Right next to you

Around me, radiant white  
Deep in this ocean of ice  
Where now my compass is lost

I am on course  
Straight back  
To you  
The storm drags me over the sea  
Away from here  
I search for the tracks in the snow

Only because angels freeze  
I feel your touch  
I feel your touch  
And only after my blood's frozen stiff  
I feel so much  
I feel so much

I've been through Hell and beyond  
Running in cold for so long  
And now all my hope is gone

I am on course  
Straight back  
To you  
The storm drags me over the sea  
Away from here  
I'm drifting away back on course  
Straight back

To you  
The storm drags me over the sea  
Away from here  
I search for the tracks in the snow
