They who Gather round the stones, who chant the spell  
of death tonight  
Beneath the stars and Skies above, The passages that  
we incite...  
Accept this blood from me to you, Your spell come  
true...

With this Mortal as will a star , Descend to darkness  
from afar  
This ritual Stardeath pact Complete , I've had enough  
of your deceit  
The blood that paints this ancient stone, let me die  
alone...

Black...  
Black Ritual Stardeath  
And i will transgress  
Black ritual Star- Death  
Die Tonight, come on

The Wind that Passes through the leaves, Beneath a  
pale moon high above  
The way we once were so long ago, can never be like  
that again  
So ill see you on the other side, In the end...
