did i say something wrong to you
that I could have said another way?
can't figure out just what you're going to do
don't listen to what they have to say
and all this time you were just running
from all the demons in your head
can't figure out just where you're going
you start to leave but then get stuck in here again
one day soon you'll understand

and I can't believe
what's happening
all of the words you say are just pushing me away

and i don't understand
why you have to leave
just because things don't work out the way you planned

just make believe, just once for me, that everything's
ok
if you leave now all that you take are the memories of
this place

and I can't believe
what's happening
all of the words you say are just pushing me away

and i don't understand
why you have to leave
just because things don't work out the way you planned

and I...
die...
and I
die...

and i don't understand
why you had to leave
just because things don't work out the way you planned
