won't be home till it's night  
and I'm a faking faking  
till I get it right  
I got some tricks  
people in my side  
but my word keeps shifting  
all at a time

I know I can make you make you  
feel without fear  
just let me show you  
and when it wasn't enough  
I need someone to keep up  
I need someone to keep up on me (X3)

won't be home till it's night  
and I'm a faking faking  
till I get it right  
I got some tricks  
people in my side  
but my word keeps shifting  
all at a time  
and now this has aknows  
need to let me know  
if you can meet me somewhere  
and I'd never know  
no matter what they do  
I'm always on a bridge  
changing everything  
changing everything

I know I can make you make you make you  
I know I can make you make you make you  
feel without fear  
just let me show you

I don't know if I'm doing it right  
show you  
be here be here
