Inside you everything is wrong
And you don't know
What's going on
Do anybody can explain?

I come to you
I hope I'm right
And I will stay with you tonight
I will defend you and I know

Chorus:

I'm your angel
So take my hand
Don't be scared
I know you do

I'm your angel
So take my hand
Don't be scared
I know you do

I think about you all the time
'Cause now I feel you in my mind
I hope someday you'll understand

I want to hear your voice again
I will be a dream that you'll regain
You'll give me wings that I don't have

Chorus:

I'm your angel
So take my hand
Don't be scared
I know you do

I'm your angel

So take my hand
Don't be scared
I know you do

Is this any just a single world
I wanna be with you all time
And I know that I will fight someday
In your eyes or their words

Chorus:

'Cause I'm your angel
So take my hand
Don't be scared
I know you do

I'm your angel
So take my hand
Don't be scared
I know you do

I know you do

'Cause I'm your angel
So take my hand
Don't be scared
I know you do

I'm your angel
So take my hand
Don't be scared
I know you do

I'm your angel
