"I'm not discovered"

Every day we look out side people walking down the street again
Someone wants to make the plan some one hope's that we will not explain
They decide to make a dream and to break a difference in us
I don't wanna be like them I will keep the fire in my eyes

Cause I am criminal
And I am daydreamer
Cause I am free I'm not discovered
So come and run with me
Cause I can set you free
cause I am free I'm not in cage

There's a million pretty smile but it's so insincere yes they lie
I don't wanna make you cry I will find an exit cause I'm wild
This temptation not for me and I don't wanna depend of things
I don't wanna be like them I will keep the fire in my eyes
