Visit "[Trees Don't Think](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Please do listen now because now we're going to tell  
you a secret  
But what we do not really know is not even worth  
listening to  
What I see is all i see and no one can deny it  
Nature is calling out for me, I will sit down and listen for  
it

Trees don't think, do we know that, do we know that?  
Trees don't think, they don't think because they're not  
humans  
Trees don't think, do we know that, do we know that?  
Trees don't think, they don't think because they're not  
humans

Chase your victim, chase your view, chase all things  
that matter  
Do believe in what is true, It 's as safe as live your life in  
reverse  
You, you and you are just another I, I do know that  
So what do I expect to see from your eyes, is it  
obvious?

Trees don't think, do we know that, do we know that?  
Trees don't think, they don't think because they're not  
humans  
Trees don't think, do we know that, do we know that?  
Trees don't think, they don't think because they're not  
humans

Train him for the game, let him hope for a while  
and blow him away. FUCK

Trees don't think, do we know that, do we know that  
Trees don't think, they don't think because they're not  
humans  
Trees don't think, do we know that, do we know that?  
Trees don't think, they don't think because they're not  
humans
