Cato play with my head  
I won't know the difference  
If we're living in the novelist  
Or substitution  
Oh-oh-oh  
Cato mess with my concepts,  
My inner vision  
Like a strobing light  
Please confuse my every decision

I can't even pretend  
That you are my friend  
What has happened to you and i  
And don't say that i have changed  
Cause man, of course i have  
Are you far too depressed now  
Even to answer the phone  
I guess you just want to  
Shave your head  
Have a drink  
And be left alone-  
Is that too much to ask?
