Jennifer Louise you don't know me but we're cousins  
your mamamama and my mamamama are sisters  
Jennifer Louise I haven't seen you since I was a kid  
when my family spent the weekend at your house  
and your father helped when my eyelashes stuck  
together  
My mom told me that now  
you're a young professional  
living with a significant someone  
Jennifer Louise we know so little about each other  
I'll probably never call you up,  
write you a letter or see you in person  
Basically Jennifer Louise you don't know me  
and we're not friends  
But I was just wondering about you  
wondering if you ever think about me
