[Intro]

Uh, can I play you, um, some of the new things
I've been through which I think, could be commercial

what's inside
what's inside of your eyes
I don't know now
I don't know
what you want
what's inside of your eyes
i can see right through them now
whats inside
whats inside of your mind
i dont know
I dont know
stay down
i dont know now
in your eyes
in your eyes
see the light shine though them now
in your eyes
you act the same
we should get it down
see right through you (right now)
see right through you
i see right
see right through you
we should get it down
take
in your eyes
in your eyes
see the light shine through.
