La, du, du, du, du, yeah

Your smile is contagious, your laugh is too  
My world is spinning faster cause my heart is on you  
The beauty in your love makes me a better guy  
And I put my hand across my heart and I promise I

Never will make you cry, never be the reason why  
I realise when I looked inside of me  
It's all about you girl  
It's all about you girl  
It's all about you girl  
It's all about you girl, oh whoa oh

Your voice is a melody when you say my name  
It sings from the heart of me till I'm burning like a  
flame  
You're sunshine on a cloudy day and I just smile  
I dream about you every night makes everything  
worthwhile

Hate it when I see you sad, I do anything and all I can  
Just so you can get a chance to hear me say  
It's all about you girl  
It's all about you girl, oh whoa oh

I've been practising what I will say to you girl  
Looking in your eyes, see the whole world and realise  
yeah  
This is more than friends this is how real love begins  
And I can fit you in my heart and I hope you feel the  
same

It's all about you girl  
It's all about you girl  
I'm all about you girl  
I'm all about you girl, oh whoa oh

Yeah when I first saw you  
I believed in love at first sight  
You're my light in the dark, you're my angel in the night  
Me and you chilling, hanging and cruising

Me and you yeah baby ain't worth losing  
Love is blind and that I knew it  
I'm addicted to you girl but I think I blew it

It's all about you girl  
It's all about you girl  
It's all about you girl  
It's all about you girl  
It's all about you girl  
It's all about you girl
