

## Oliver Trolley "Kings Of Kings"

Visit "[Kings Of Kings](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I've been walking way to long, as I'm singing  
me this song  
It goes on inside my head, I think about what they said  
I'm just  
I'm just looking for some substance  
And before I'm old and grey, I hope the kids will be  
this way  
Singing that Friday song, together they'll sing  
along, we've got  
We've got so much substance

Well as I sit back and as I wonder away  
I'll think of all the things that I hope to say  
I'm wishing on a star up so high  
I'm writing you this song to get me by

I've been waiting patiently for the escape I need  
When home's in the friends you see, take a lesson  
from me  
We've got so much substance

Well as I sit back and as I wonder away  
I'll think of all the things that I hope to say  
I'm wishing on a star up so high  
I'm writing you this song to get me by  
Beat beat goes the sound of my heart as it's  
starting to race  
We're getting faster and faster now  
Beat beat goes the sound of my hear as we pick up the  
pace  
We're the kings of kings tonight

(I'll remember when)  
We're the kings of kings tonight  
Keep it Up till the day breaks bright  
(I'll remember when)  
We're the kings of kings tonight  
Keep it up till the day breaks bright
