light me up a cigarette  
put it in my mouth  
your the only one who wants me around  
and i can think of a thousand reasons why  
I don't believe in you  
I don't believe in you and I(x2)

Go ahead and fill my drink up, you still be all I think of,  
we try to stay afloat but know the weight'll sink us,  
I say the problems solved - once you forget the  
question  
but you go ask again cause you aint  
learned your lesson and for the heavens i promise you  
no regrets for my mind is left in the past  
when that promise is never kept to be honest i felt it  
strain call it lost  
on the way for certain in my intentions i thought that i  
never swayed  
but between the cameras flash i guess that it had to  
happen  
the negatives to the perfect picture i had to have them,  
and my collection consists of all that I had to take.  
we celebrate in the sacrifices we had to make we had  
to we had to wait and prepare for the lost

over sold on the win and unaware of the cost,  
Cause I can write a song, but can't unright my wrongs.  
I guess you live and learn,learn when the love is gone

light me up a cigarette  
put it in my mouth  
your the only one who wants me around  
and I can think of a thousand reasons why

I don't believe in you  
I don't believe in you and I

now here we are again back from our darkest stand  
we'll keep this happiness going long as we all pretend  
it seems we built this from nothing but broken dreams  
as memories will forget that all we hope to free(?)

I got my future in this ticket life is yours if you live it  
you wish you could plan it different but fuck it thats how  
you miss it

I always hoped that you would visit  
always thought it was you,  
always caught in the past cause its all that i fucking  
knew  
its funny aint it,guess its all how you paint it  
its that I really got but its all for the entertainment

the champagnes on the dresser  
empty from all my efforts the life from yesterdays  
party is carried off in the stretcher  
and here we stand like everythings how we planned it,  
but who we kidding we drinking so we don't panic  
drunk off that lucky 7, go ahead and tell the reverend,  
we fucking rock stars, call us Zeds Deppelin

light me up a cigarette  
put it in my mouth  
your the only one who wants me around  
and i can think of a thousand reasons why  
I don't believe in you  
I don't believe in you and I
