A third mind, the unseen collaborator
Mind dancing just for the wrath of it.
We're talking aquarian conspiracy, turn on, tune in
drop out,
Fighting bloodied filth on omnilethal grounds,
accelerating.

Slaverising neocortexan stigmatixing atonement,
I admit and deplore the human weakness,
Since an eye for an eye leaves both of us blind.
Lucifertility, the fathomless ability, now
Cut the umbilical cord to the insanity of dogmas,
We've got to educate our masters,
So join, come on join the luminous ones.

I laugh (10,9) and i laugh (8,7) and i weep (6,5)
Peeling the onion off layer by layer (4,3)
I laugh (2,1) and i weep (zero),
Seeing the joke that is killing the sorrow in me (dust
off)

I'm laughing, don't you get it, can't you see?
You are the new messiah, and only you can set you
free.
The blind is leading the blind, the apodeictic
correlation.
The unhappitants of gaia in playground mumbo-jumbo
science fiction.

Celebration over cerebration in invocation over
liberation,
Can you take it? or shall we take it again?
Do decipher the unalienable heirloom of every son of
man:
"we are all free to do exactly what we want to do",
Let's dig the antithesis to illthy dystopia,
Join, come on join the luminous ones.

Rap: this is pon-x, bassic'ly crazy as fuck (the energy)
Technothrashing through a synergic galaxy
This is def-con posse, (we reign supreme), nukin' the
scene

& you know whom we'll crush like a jellybean.

I laugh (10,9) and i laugh (8,7) and i weep (6,5)

Peeling the onion off layer by layer (4,3)

I laugh (2,1) and i weep (zero),

Seeing the joke that is killing the sorrow in me (go)
