

## Orange "Happening Today"

Visit "[Happening Today](#)" on MotoLyrics.com

Don't let these rainy clouds drag you down  
It's just a matter of time before you figure it out  
Don't be afraid I'll never back down

Some things aren't easy  
And you think you're crazy  
But outside everything's happening today

Oh I am alive, and I will survive  
We've all had times, times where we've been  
wondering why  
It makes me realize I've wasted my time  
On this, on this, on you

Things aren't easy  
And you think you're crazy  
But outside everything's happening today

Oh please believe me  
This world's amazing  
'Cause outside everything's happening today

Today's the day  
Today's the day  
Today's the day  
Today's your day
