She (she)(she) She's a bombshell
She (she)(she) She's a bombshell
oh yeah
Down in south oakland
Off east 14th its raining
Six a.m. on sunday and the bums are praying
Met her at a party we were drunk now were sober
She said its cold got a long walk home come over
Shes a bombshell
I've retraced my steps a thousand times
Seems I've spent hours asking all my freinds about her
Been six months but ill never be the same
Nobody remembers her name
Shes a bombshell
