Cracked like a motor head
Pitched on the side of the road
Time for the innocent
Is gone
Walking the other way
You got your cellphone up in my way
In my way

It still reminds me
I'm not the only one, the only one
I'm not the only one, the only one

Cut but im gonna live
It's just a test of my will
My will
My will
Revved for another day
You got your cellphone up in my way
In my way

It still reminds me
I'm not the only one, the only one
I'm not the only one, the only one
I'm not the only one, the only one

I can't change you
So I'll change myself
And I can't save you
So I'll save myself

So what if you remember me
You knocked me out with one in lies

I'm not the only fucking one
I'm not the only one, the only one
I'm not the only one, the only one
I'm not the only one, the only one
