I'll be your god
I'll be your strength
I'll be the one you blame it on
When it goes away
I'll be your light
In the darkest hour
I'll be the one you love the most
The one you won't allow

Tell me what
You expect
What you see
Is what you get

And time, time will tell
If all the fighting was for nothing
Then it'll fuckin go to hell

Tell me what
You expect
What you see
Is what you get

(What you get, What you get, What you get out)
(What you get, What you get, What you get out)
(What you get, What you get, What you get out)
(What you get, What you get)

Tell me what
You expect
What you see
Is what you get

Tell me what
You expect
What you see
Is what you get
