I try you try  
Is just not time  
The distance between us  
Is keeping us from where we want to be  
But one day you'll see  
You'll be happy  
Cause I know in my heart this love  
It's gonna last always and forever  
Even though we are not together  
Phone calls  
E-mails  
Texting  
Skyping  
I wish we could spend each moment physically  
Cause it's so difficult  
Having to be alone  
Girl just know I am holding on  
And be there when I come home  
Cause I love you  
Always and forever  
Even though we are not together  
Girl I promise you  
And you promised me  
Always and forever  
Don't you believe in our love baby?  
Don't you believe we can do it girl?  
A few more months and I will be there  
You promised me  
So don't go nowhere  
Don't you believe we can make it work?  
Baby don't leave I don't wanna hurt  
You said you never stop being in mind  
No matter the circumstance or time  
What happened to  
Always and forever  
Even though we are not together  
I promise you  
And you promised me too  
Always and forever  
She called and told me  
We can't be we are too far apart

She said I am waiting  
She found a new man  
Make plans she's moving  
Hung up the phone  
Damn she is gone  
We promised each other that we will always be there  
Promised each other that no matter how far  
We will always love each other  
I guess  
Forever don't last too long  
I guess this ain't no love song  
This ain't no love song
