Oh girl you just something else
You got me feeling I myself
All in a place a million faces
I can see nobody else
[?] of my element
A feeling almost had and said
It's like you release me from shelve

[Chorus:]
And I like it
I am not the same tonight
You changed me
I've transform
I am out of the norm
You introduce to me
Another part of me
Me me me
Another part of me

Who is this guy
I can't recognize
A new me
Girl I am so alive
But underneath it al
Was me in a new disguise
I resurrected the beast inside
Girl I am about to lose my mind
So brand new like a debate

[Chorus]

Check 1 check 2 check 3
Girl you showed me
Another part of me
[Repeat]

[Chorus]
