All's quiet in your head  
All's quiet in your head now

I think you've got it alright in your head now  
yeah I think you got it alright in your head  
There's something pretty fucked up with your  
conscience  
but I'd say you got it alright in your head now.

I ain't gonna shut down all my windows  
I ain't gonna shut down like before  
Got another flag here says my mailman  
Maybe someone stole yours from your door?

All's quiet in your head  
All's quiet in your head now

All's quiet in your head  
All's quiet in your head now

Shut down all your windows  
Shut down like before  
Shut down all my windows  
Shut down like before
