You, once again you
never been like this before
yes, this is true
after all that we had done, i'm alone
very hard to say goodbye
I'm proud to know u
and there is no one else like you

Though im crying over you
i am torn into pieces
Though I tried to get over you
But you're always haunting me

You, i know you
now we are fallen apart
sorry, i'm so sorry
for every mistake that i've ever done
very hard for me to say goodbye
I'm very proud to know u
and there is no one else like you

i promise if someday
we'll be together again
i'll never let you go
there won't be any same mistakes between us
again
