You say
I'm gone
This road
We're along
You cry
Alone
We fall
On our own

Got me something
Souls
You got to let it go
Got me something
Souls
You got to know, know, know
Got me something
Souls
You got to let it go
Got me something
Souls

Well I said, I said
I'll just leave it alone
All the bets on the other ones
You leave it alone
You place your bets on the other ones
You wanna go home
You say, you say, that you know that I'm overdue
And only learn from the other ones
You're overdue, I only learn from the other ones
Not only from you

You say
My mind
We fall
One of a kind

Just stop

You sold
Your soul
We cry

On our own

Well I said, I said
I'll just leave it alone
All the bets on the other ones
You leave it alone
You place your bets on the other ones
You wanna go home
You say, you say, that you know that I'm overdue
And only learn from the other ones
You're overdue, I only learn from the other ones
Not only from you

Dissallude this minds only colourful
Dissallude this minds only comical
Dissallude this minds only colourful
Dissallude this minds only comical

Dissallude this minds only colourful
Dissallude this minds only comical
Dissallude this minds only colourful
Dissallude this mind

Well I said, I said
I'll just leave it alone
All the bets on the other ones
You leave it alone
You place your bets on the other ones
You wanna go home
You say, you say, that you know that I'm overdue
And only learn from the other ones
You're overdue, I only learn from the other ones
Not only from you

You give it time
You give it space
I want you to stop
Why can't you stop?
