To make a wish, I can trust, get the coin in the cup.  
Find the bliss in the dust, like a gem in the rough.

Coz I dont even know what I've got.  
And I dont even know what I want.  
I left it outside outta side, stumblin' and so perfectly  
aline your mind stop wondering.

You are all the wiser  
You start talkin' like I'm  
To far from the right side  
You start talking like I'm

Just like a trick I am holding it up.  
Pulling or souls now, 'ling our souls now,

Right from, the bottom to top.

Coz I dont even know what they got,  
And I dont even know what I'm not  
I left it out side outta side stumblin' and so  
Perfectly aline your mind stop wondering.

You are all the wiser  
You start talkin' like I'm  
To far from the right side  
You start talkin' like I'm

Saw you all, to saw and this I  
saw you all, to make of all this X2

I am in this ocean X2
