You start it

I like to lie about  
I like to lie about all kinds of things  
Even if there small  
As nothing that can suede away I think  
You hold it to me now  
These words that make me feel so insecure

Pick my pockets

Diamonds aren't in the rough  
I think you're looking way too far and hard  
Diamonds aren't in the rough  
If it's your motive shine to find a star  
Where is your value in material things  
That you can discard

Drop to shatter

I watched this film go on  
I'm watching with so much intent  
Yes it's unethical  
But somehow it makes perfect sense

So jealous

I'm smiling most the time  
I smile so that you'll never see the fear  
My eyes into the light  
You blind you self so logic disappears  
So inappropriate  
The time it takes to gander up a name

With hold to hold it

I watched this film go on  
I'm watching with so much intent  
Yes it's unethical  
But somehow it makes perfect sense  
You hold it to me now

These words that make me feel so insecure

Pick my pockets  
This particular times zone  
Widens the gap differs the distance  
This particular times zone  
Widens the gap differs the distance

I'll never wear it no  
I'll never wear it no  
I'll never wear it no  
I'll never wear it no  
I'll never wear it no  
I'll never wear it no  
I'll never wear it no  
Or am I too obvious

I am afraid to be  
Yes I am afraid to be myself  
Cause the keep telling me  
I'm trying to be someone else  
How can you no these things  
Unless you've been inside my head
